## Office of Technology Transfer

The mission of the College of William & Mary Technology Transfer Office is to benefit the public by moving results of W&M research into societal use. We will:

- Support effective and efficient commercialization of university technologies through appropriate mechanisms;
- Support research at the College and economic development in the region;
- Ensure that the process is consistent with the academic, research, and conflict of interest principles of the College.

## Office of Sponsored Programs

The Office of Sponsored Programs (OSP) supports William and Mary's Faculty in applying for and managing external awards. It is our responsibility to:

- Identify and distribute information about funding opportunities to the university community
- Review and approve proposals prior to submission to funding entities
- Negotiate and execute sponsored program agreements on behalf of the university
- Interpret regulatory and contractual terms associated with sponsored agreements
- Monitor financial transactions to assure conformity with federal, state, and agency requirements
- Establish and maintain procedures, guidelines and oversight to ensure compliance with federal and state regulations governing research activities
